NeoGreen Hydrogen Corp.

Co-sponsorship of Dr Hage Geingob Cup Rugby Tournament

NeoGreen Hydrogen Energy Namibia Pty Ltd, the Namibian joint venture between Alpha Namibia Industries Renewable Power Limited (“ANIREP”), and NeoGreen Hydrogen Corp. (“NeoGreen” or the “Company”), is delighted to be a co-sponsor of the Dr Hage Geingob Cup, a rugby tournament held in Windhoek, Namibia taking place this week.

NeoGreen is a global integrated green hydrogen project developer, dedicated to the production of hydrogen-based green fuels, that aims to be at the forefront of the global transition to a carbon-free energy system by 2050.

Jason Hutton-Mills, President of NeoGreen Namibia, commented:

“We are delighted to be sponsoring this event hosted by His Excellency the President of Namibia, Dr. Hage Geingob, which will undoubtedly assist the national team with its preparations for the 2023 World Cup in France. We have seen the sport support cohesion and national unity, helping to bring a historically culturally diverse nation even closer together. We look forward to seeing Namibia in the 2023 World Cup and wish the team the very best of luck during the tournament.”
